

Student Voice update: March 2015

1. **Five** recent examples of **'You said, we did'**:

- 'We want different choices on big screen at lunch' -> student top picks are now shown
- Concern over behaviour around girls toilets -> More checks around this area, modify staff rotas for more regular monitoring
- 'We want more places to go/sit in bad weather' -> increased seating available in canteen
- We are sometimes concerned over behaviour on some bus routes -> quick interventions put in place whenever an issue is reported
- Some of us think litter is a serious problem -> Highlighted it as a focus, assemblies, more bins around school, and recent surveys show the problem has reduced

2. Next steps.... One area of concern which appeared on our last survey was over the state of the boys toilets, so this will be our next area to focus for improvement over the coming weeks and term

3. Other SV developments:

Digital guardians,

Cheshire Young Persons conference (in June),

Use in recent recruitment – interview panels,

Use at Consultation evening – to carry out 'parental voice' surveys

Hasn't heard of it
